PROJECTS

Simon Says Game | HTML,CSS,Javascript

Dec 2024

- * Created an interactive “Simon Says” memory game using HTML, CSS, and JavaScript, featuring dynamic color sequences, user input tracking, and progressive difficulty levels.
- * Implemented game logic with clean, modular JavaScript to handle sequence generation, user input comparison, and game state management without external libraries.
- * Identifying and anticipating patterns activates pattern recognition skills, which are fundamental to problem-solving, coding, and logic development..
- * Developed a fast-paced memory game to enhance short-term memory and mental sharpness.

Mini-Whatsaap | HTML,CSS,Javascript,nodejs,mongobd

March 2025

- * Developed a mini WhatsApp clone with HTML, CSS, and JavaScript, implementing CRUD operations for real-time text messaging and message management.
- * Developed a mini WhatsApp clone featuring CRUD operations (Create, Read, Update, Delete) for real-time text messaging with dynamic buttons for user interaction..

CERTIFICATIONS

- HTML,CSS,Javascript - Udemy

EXTRACURRICULAR

Taught basic C++/DSA in online Mode. 11-2024 – 03-2025
